

Fast, Easy, and Automated: Streamline Your Shipping Process Through SAP Business One

Vision33 Shipping Add-on

Is your shipping process manual or disconnected from SAP Business One? To ensure customer satisfaction and company profits, your customers must receive their orders as soon as possible. And, if you're like many growing businesses shipping orders every day, you depend on an external third-party system solution to get your orders to their destinations.

With the Vision33 Shipping Add-on for SAP Business One, you eliminate the cumbersome double data entry between SAP Business One and your shipping solutions. This easy-to-implement add-on passes data between the two applications and provides instant access to tracking information at the click of a button. Enter data once and let the Vision33 Shipping Add-on do the rest.

Features

Support for Multiple Carriers

Real-time integration with UPS WorldShip, FedEx Ship Easy, Endicia (for USPS), and Purolator E-Ship Server shipping solutions.

Integration with Shipping Solutions

Retrieve shipment tracking numbers from your shipping solution for sales orders, deliveries, or AR invoice documents within SAP Business One. You can also draw freight charges for shipments from shipping solutions into sales orders, deliveries, or AR invoice documents.

Address Validation

Address validation with supported shipping providers with the ability to update ship to and bill to addresses on the Business Partner or SAP Business One marketing documents.

Batch Invoicing Feature

Invoice your shipped orders with the click of a button.

Advanced Delivery Configuration

Configuration-based support for partial deliveries, additional shipping charges, handling charges, and COD delivery charges.

Shipping Detail Screen

Access to direct links to easily view ship status, date last updated, expected delivery date and other real-time FedEx, or UPS details.

Benefits Provided to Customers

Faster Delivery Times

With the Vision33 Shipping Add-on, your employees will ship orders faster and more efficiently. Customers will stay up to date on items in their shipment.

Streamlined Shipping Workflow

Integrates with your document flow in SAP Business One from the sales order, delivery, or invoice. When the order is ready to ship, use your shipping solution to create the shipment.

Improved Order Accuracy

No matter how many packages you ship, this add-on processes them with speed and accuracy. Create a sales order and delivery within SAP Business One, and when the order is ready to ship, use UPS or FedEx to create the shipment.

Easy Shipping Charge Calculation

Once the order is ready to ship, use UPS, FedEx, USPS, or Purolator to create the shipment. Click the 'Shipping' button to calculate shipping charges and add them to the applicable document in SAP Business One. Then, attach the labels on your order and ship. Your information is automatically added to SAP Business One for accounting, with tracking numbers for easy reference and status updates.

Vision33 Inc. is a global IT professional services consultancy that solves customer business challenges through the promise of technology and the value it delivers.
