

SAP Business One®

Grow fast, run simple and drive profit
with SAP Business One Cloud

SAP Business One powered by Amazon Web Services is an affordable, powerful solution to integrate and streamline your key business processes. From financials and sales to inventory and production, this easy-to-use business management software is built for growing small to midsize businesses that want to drive profit and run simple. With SAP Business One all your valuable information is protected in a secure, cloud environment giving you access anytime, anywhere so you have more time to spend on running your business and less on IT.

Here are the top 6 advantages of leveraging SAP Business One Cloud powered by Amazon Web Services:

-  SECURITY
-  COST SAVINGS
-  REMOTE ACCESS
-  SPEED
-  THE AWS EXPERIENCE
-  FLEXIBILITY

Why Choose Cloud over On-premise?

SECURITY

When you implement SAP Business One Cloud, you automatically enjoy the advantages of the world-class AWS cloud. AWS safeguards your data to prevent loss of information and ensures data security. The AWS model is 20x more reliable than typical commodity disk drives, making it the most secure system available.

- ✓ Complete visibility & control
- ✓ Safe & customizable environment with multiple layers of security
- ✓ Auditability
- ✓ Data encryption & regular data backups

REMOTE ACCESS

- ✓ Access SAP Business One anytime, anywhere, and on any device (PC, MAC, Linux)
- ✓ Have workers in the field input data and be able to monitor it in real-time
- ✓ SAP Business One Cloud helps you run a connected, leaner and more agile organization

THE AWS EXPERIENCE

- ✓ Server environment up and running in hours, not days and weeks
- ✓ Guaranteed high availability, performance and durability – all at a low cost
