

Message Confirmation Options

September 2015

Tired of confirming multiple messages when performing regular tasks?

Well, you can change it right now!

Next time a message you automatically respond to appears, select this new checkbox:

The screenshot shows the SAP Sales Order window with a confirmation dialog box overlaid. The dialog box asks: "Do you want to update the existing table rows with the new delivery date?" and includes a checkbox labeled "Remember My Answer and Do Not Show This Message Again". The checkbox is currently unchecked. Below the checkbox are "Yes" and "No" buttons. The background window shows the Sales Order details, including Customer (C20000), Name (Maxi-Teq), and various dates (Posting Date, Delivery Date, Document Date) all set to 07/12/2015. A table with columns for Item No., Item Description, Quantity, No. of Packages, Unit Price, and Dis... is visible. The total amount is 424.00 \$.

This message will not appear again. Your preferences are saved in this window, where you can review and change them any time:

Message Preferences - Setup

#	Area	Form Name	Message Text	Answer
1	Sales and Purchasing	A/R Invoice	Update document rows according to new BP's data?	Yes

OK Cancel

Available as of SAP Business One 9.1, version for SAP HANA PL07 and SAP Business One 9.1 PL07.
