

At Your Fingertips: Alternative Keyboard Usage

Are you a keyboard person? Or would you prefer the mouse? Do you use mainly the numeric keypad? While you think about the answers, let us share with you some good news that will help you increase the efficiency of your work.

SAP Business One enables you to adjust the keyboard usage to fit best the nature of your work. In Administration > System Initialization > General Settings > Services tab, a new section “Alternative Keyboard Usage” is added. Here you can decide whether use the ENTER key on the numeric keypad as TAB key, to set the DOT key to function as the defined decimal separator, and to use mouse only for document operations.

General Settings

BP	Budget	Services	Display	Font & Bkgd	Path	Inventory	Resources
<p><u>At the Beginning of Each Session</u></p> <input type="checkbox"/> Perform Data Check <input type="checkbox"/> Open Exchange Rates Table <input type="checkbox"/> Display Recurring Postings on Execution <input type="checkbox"/> Display Recurring Transactions on Execution <input checked="" type="checkbox"/> Send Alert for Activities Scheduled for Today <input checked="" type="checkbox"/> Display Inbox When New Message Arrives <input type="checkbox"/> Open Window for Credit Voucher Ref. Update <input type="checkbox"/> Open Postdated Checks Window <input checked="" type="checkbox"/> Display Worklist When New Task Arrives				<p><u>Internet Definitions</u></p> <input type="checkbox"/> Use Proxy Server for Web Connection <p>Default E-Mail Method</p> <input checked="" type="radio"/> SAP Business One Mailer <input type="radio"/> Outlook E-Mail			
<p>Update Messages (Min.) <input type="text" value="0"/></p> <p>Screen Locking Time (Min.) <input type="text" value="30"/></p> <p>Open Postdated Credit Vouchers Window <input type="text" value="No"/></p>		<p>Telephone No. <input type="text"/></p> <p>Area Code <input type="text"/></p> <p>For External Line <input type="text"/></p> <p>Map Service <input type="text" value="Google Map"/></p> <p>History / Log <input type="text" value="99"/></p>					
<p><u>Alternative Keyboard Usage</u></p> <input checked="" type="checkbox"/> Use Numeric Keypad ENTER Key as TAB Key <input type="checkbox"/> Use Numeric Keypad DOT Key as Separator on Display Tab <input type="checkbox"/> Enable Document Operations by Mouse Only (Such as Add, Update, OK)
