

The Pick List is Only Right Click Away

The pick lists are closer than ever. Need to generate a pick list for a production order? Just open it and choose from the context menu "Generate Pick List":

The screenshot shows the SAP Production Order window. The main data area contains a table with the following components:

#	Type	No.	Description	Base ...	Planned...	Issued	Avail...	UoM ...	Wareho...
1	Item	LM4029MC	Memory Chip	2	10		267		01
2	Item	LM4029D	LeMon 4029 500 shee	1	5		696		01
3	Item	LM4029PH	LeMon 4029 Printer P	1	5		704		01
4	Item	LM4029PS	LeMon 4029 Printer P	1	5		62		01
5	Item	LM4029SB	LeMon 4029 Printer S	1	5		623		01
6	Item								

A context menu is open over the table, with the "Generate Pick List" option highlighted in a purple box. Other menu items include Cancel, Duplicate, New Activity, Related Activities, Transfer Request, Component Transfer, Relationship Map..., and View Pick Lists.

The pick list appears, waiting for your further processing:

This option is also available in sales orders, A/R reserve invoices, and inventory transfer requests. In addition, the option “View Pick Lists” which is available in the context menu of these documents, enables you to display the pick lists that were already created for the given document.

Available since SAP Business One 9.1, version for SAP HANA PL04 and SAP Business One 9.1 PL04
