

Get More Done With Lumiya

AI-Powered Document Automation Suite

Transform your business operations with Lumiya, an AI-powered automation suite that streamlines purchasing, sales orders, and expense management—on a single intelligent platform.

Lumiya harnesses Azure AI to automate manual processes, reduce data entry, and intelligently streamline business operations—enabling teams to move faster with greater accuracy and confidence.

Lumiya purchasing

Take charge of business spending

Automate the purchase-to-pay process.

Lumiya expenses

Control expense spending and enforce corporate policies

Automate the expense claim management process.

Lumiya sales

Accelerate order-to-cash cycles

Automate the receipt and processing of inbound sales orders.

Lumiya integrates seamlessly with ERP and accounting systems, including [SAP Business One](#) and [Sage Intacct](#).

■ Seamless Integration

Accessible via a web browser or mobile app, each module integrates seamlessly with your ERP or financial management system, helping you do more without adding headcount.

■ Flexible, Intelligent Automation

Easily configurable to support your unique business rules, workflows, and policies, Lumiya delivers new levels of operational efficiency, visibility, and control.

Run faster, work smarter, and
do more—with Lumiya.

Lumiya[★] purchasing

AI-Powered Purchasing and AP Invoice Automation

Lumiya Purchasing (P2P) empowers companies to take charge of spending by automating the purchasing process.

- Digitizes and automates manual data entry and purchasing processes to control spending, shrink transaction costs, and strengthen oversight, including:
 - Creating purchase requisitions and routing them for approval per business rules
 - Importing AP invoices and matching them to POs and goods receipts (3-way matching)
 - Capturing and matching goods receipts to purchase orders
 - Posting transactions to ledgers
- Provides real-time visibility into spending patterns
- Enables smarter decision-making with built-in analytics

Lumiya[★] expenses

AI-Powered Expense Claim Management

Lumiya Expenses automates end-to-end expense management, enabling users to capture, submit, approve, and reconcile expenses from any device.

- Prevents unauthorized or excessive spending
- Pays employees faster with a streamlined submission process and approval workflows
- Enforces compliance with corporate policies
- Improves expense accuracy by eliminating spreadsheets, paper receipts, and manual data entry
- Tracks and analyzes business expenses

Lumiya[★] sales

AI-Powered Sales Order Automation

Lumiya Sales frees sales teams from manual order entry by automating the receipt and processing of inbound sales orders.

- Accelerates order-to-cash cycles
- Captures accurate order details—like items, quantities, and pricing
- Reduces errors, returns, and customer complaints
- Enforces rules like discount limits and approval workflows
- Frees sales teams to focus on building relationships and closing deals

Lumiya is powered
by **Saltbox Integration
Platform**, Vision33's
cloud-based
integration solution.
