Finance Made Faster, Smarter, and Easier

With Vision33 and
Sage Intacct for Recruitment

One integrated solution that empowers
recruitment agencies to DO MORE in finance.

In today's competitive staffing and recruitment market, data is your most valuable asset. It underpins profitability analysis, cash flow management, and the ability to make fast, confident business decisions.

But for recruitment agencies, finance isn't straightforward. Billing varies across permanent placements, contract roles, and temp workers—all with different payment schedules, fee structures, and compliance requirements.

Too often, small business accounting solutions and manual processes can't keep up. The result? Slower invoicing, revenue leaks, limited visibility, and valuable resources tied up in admin instead of driving growth.

If your finance team is buried in spreadsheets, chasing late invoices, or struggling to reconcile revenue across different types of placements, you're not alone.

Thankfully, there's a smarter way to run finance: [Sage Intacct for Recruitment](#).

Sage Intacct is the AI-powered, cloud-native financial management solution designed by accountants for accountants and endorsed by the AICPA.

With powerful automation, real-time reporting, and deep financial insights, Sage Intacct helps recruitment agencies make faster, smarter decisions.

Trusted by over 24,500 businesses, Sage Intacct transforms finance and empowers the rise of digital companies.

Sage Intacct Gets Even Better With Saltbox

Saltbox, Vision33's exclusive integration platform, seamlessly connects Sage Intacct with Bullhorn or any other CRM/billing solution, giving you one connected view of your business.

With real-time data flowing across systems, you'll:

- ✔ Generate accurate invoices instantly
- ✔ See cash flow in real time
- ✔ Track profitability by client, recruiter, or role
- ✔ Speed up month-end close
- ✔ Stay audit-ready with a secure trail of transactions

Bottom line?

Get the insights and efficiency you need, without the manual work.
