

Concur® Invoice Connector

Easily integrate Concur® Invoice with SAP® Business One and other apps.

Concur® Invoice is a powerful solution for automating invoice management. But although it natively integrates with other Concur modules, integrating with other business applications, including SAP Business One, isn't straightforward.

SAP® Concur®
Partner

The Saltbox Platform by Vision33 integrates, automates, and synchronizes Concur Invoice data with critical business applications, including SAP Business One and Sage Intacct. Saltbox empowers IT and business stakeholders to discover new levels of operational efficiency and cost savings by automating data management practices and error-prone manual processes.

Born in the cloud, Saltbox is developed by integration and business process experts and priced for growing small and mid-sized businesses (SMBs). And it's powered by Amazon Web Services (AWS).

It's the only SAP-certified integration solution for integrating SAP Concur with SAP Business One.

Saltbox works with both standard and professional versions of Concur Invoice.

Powerful Workflows

Workflows automate the flow, treatment, timing, and delivery of transactional data between business systems, which enhances system functionality that delivers unprecedented value.

Workflows can be customized or developed from scratch to support any automation scenario.

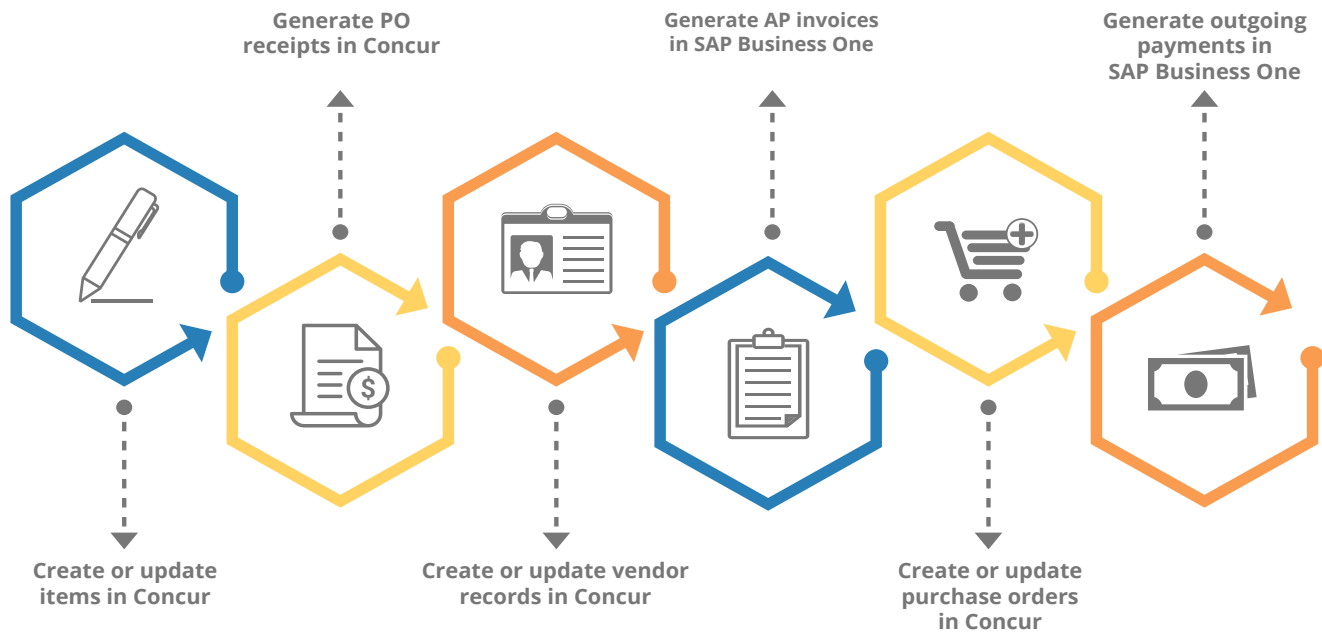

The Concur Invoice Connector offers many pre-built, rapid implementation workflows.
(see back for an illustrated chart)

Dynamic Updates

The Concur Invoice Connector updates dynamically, reducing IT maintenance and protecting your integrations, workflows, and business from disruption.

How to Buy

Because the Concur Invoice Connector runs on The Saltbox Platform, you'll need an active Saltbox license to integrate Concur Invoice with SAP Business One. Each connector is sold separately.
